

150 Projectile

A floating rubber tipped projectile that reaches 140 meters and pulls the line after itself

Article 7004 **PLT 150 Projectile** 1

Rubber tipped plastic projectile that floats. Used for general line transfer or as a training projectile.
Typical shooting range with a dry and clean line of:
5mm (Art No 6109): 115m
3,2mm (Art No 2103): 140m.

Operations

Due to its high precision, the PLT is commonly used for transferring line between vessels such as bunkering, loading, anchor handling and so forth.
