Article 3303	Launching Tube 125/150	1
Article 7002	PLT Line Pick-up Grapple	1
Article 6203	Linebox 5mm HMPE	1
Linebox containing Line 5mm Braided Dyneema, Art No 6103. 100/120m. Floats and has very little elongation under stress. Breaking strength of the line: 19613N (2000kg).		

Operations

The PLT is used by Anchor Handlers to safely and effectively grab the anchor buoy softline. This is done by having a secondary small buoy attached to the free end of the softline.

You can launch the Line Pick-up Grapple up to 85 meters from a safe and elevated spot on your vessel.
